

KPI - CO2

3,876 grams

Total CO2 Saved vs. Battery

Total_CO2_Saved. The data is filtered on Action (Day Of Week,Zone), which keeps 14 members.

KPI - Latency

0.5086 ms

Average Ingested Latency

Avg_Ingestion_Latency. The data is filtered on Action (Day Of Week,Zone), which keeps 14 members.

KPI - Alerts

9.7%

Average Alert Rate

Alert_Rate_Pct. The data is filtered on Action (Day Of Week,Zone), which keeps 14 members.

KPI - Rogue
Rejection

7.1%

Rogue Signals Rejected (%)

Rogue_Rejection_Rate.

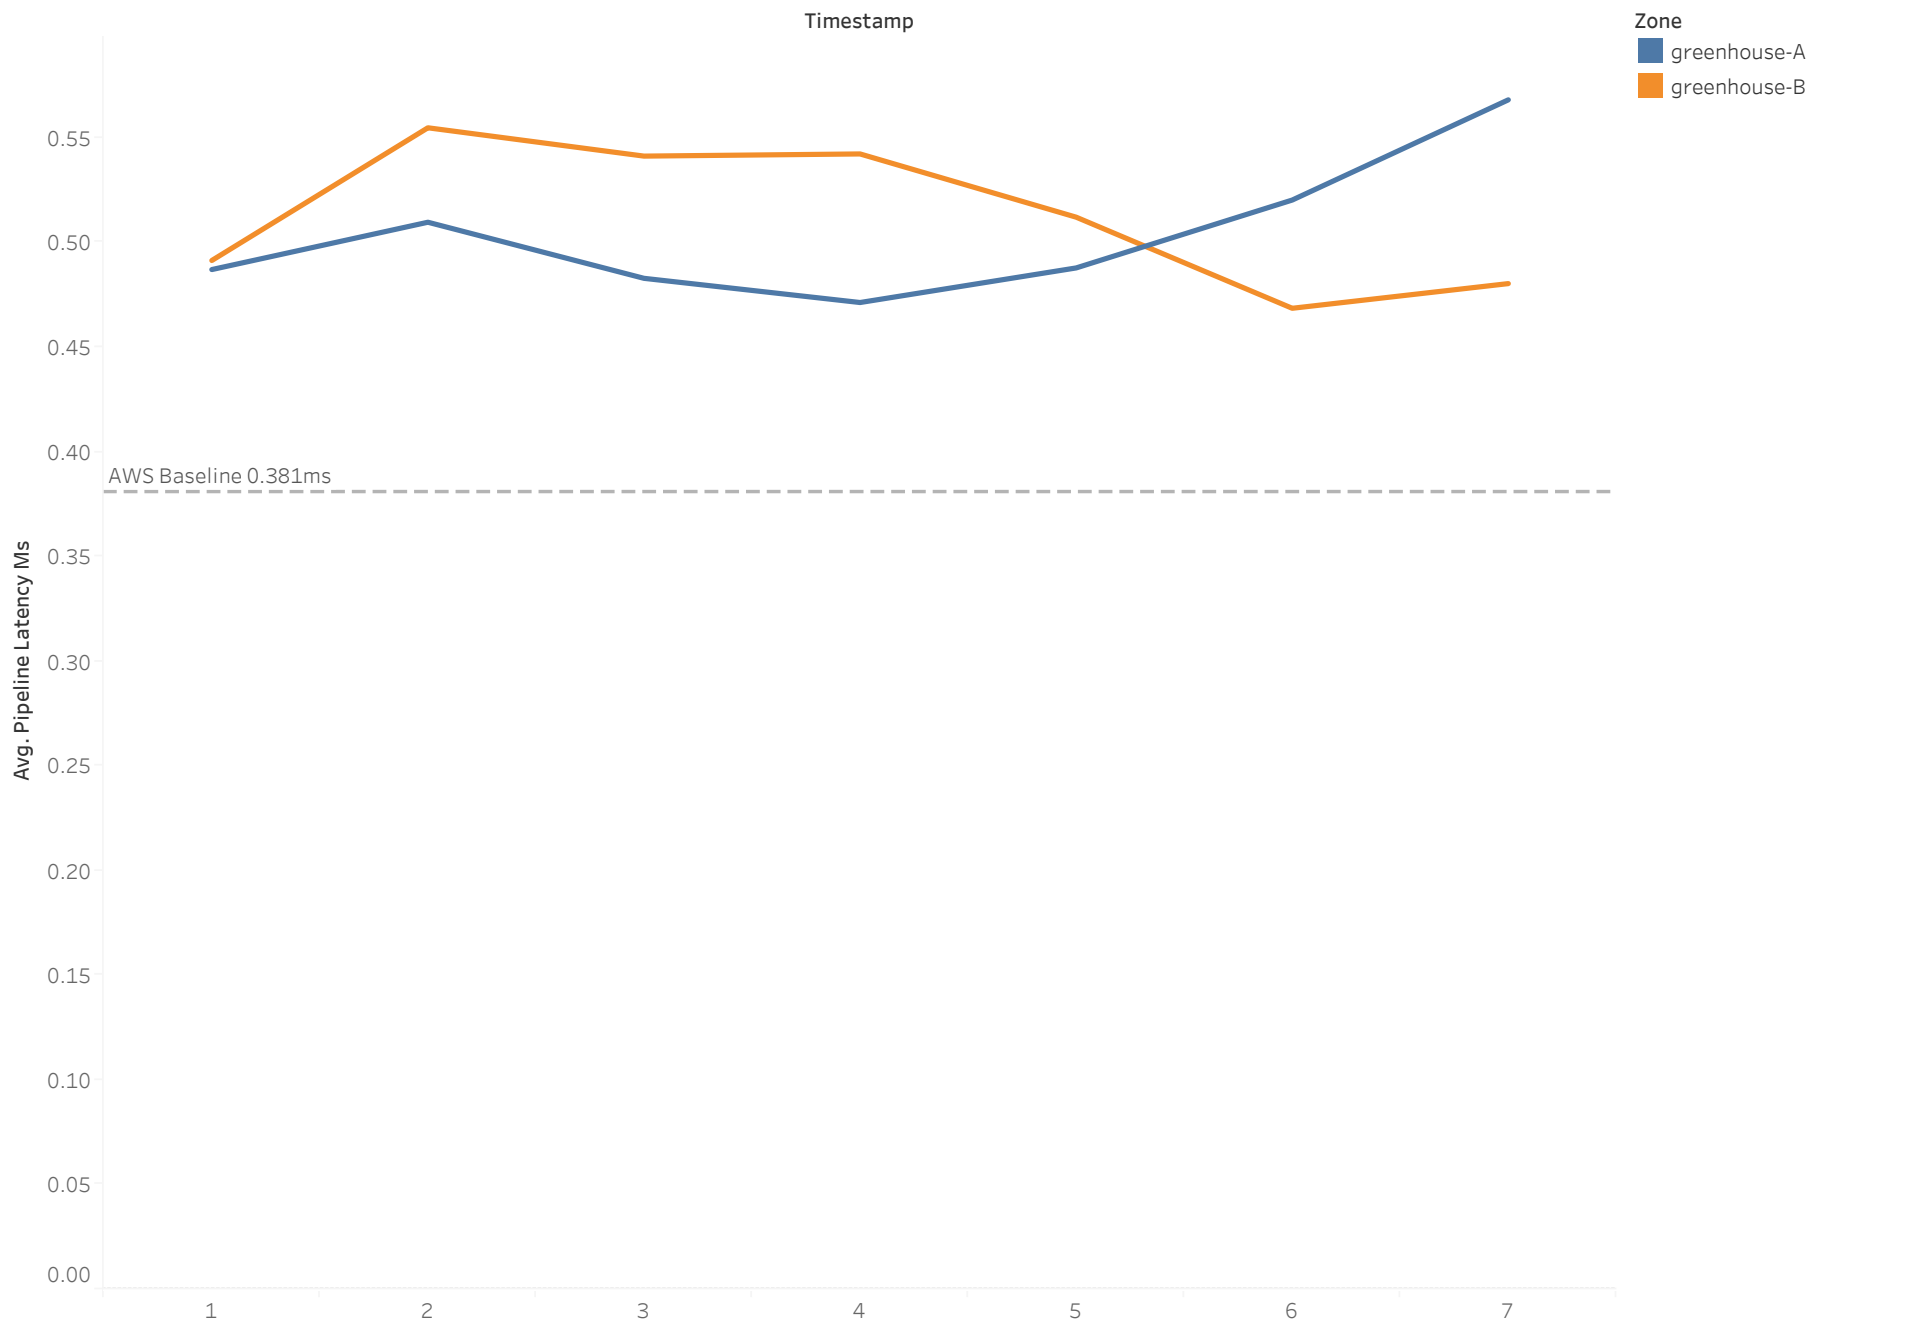

KPI - Rogue catch rate

100%

Adversarial packets rejected (5 of 5: 3 rogue ID, 2 spoofed key)

Adversarial_Catch_Rate.

Pipeline Latency - Edge to Cloud

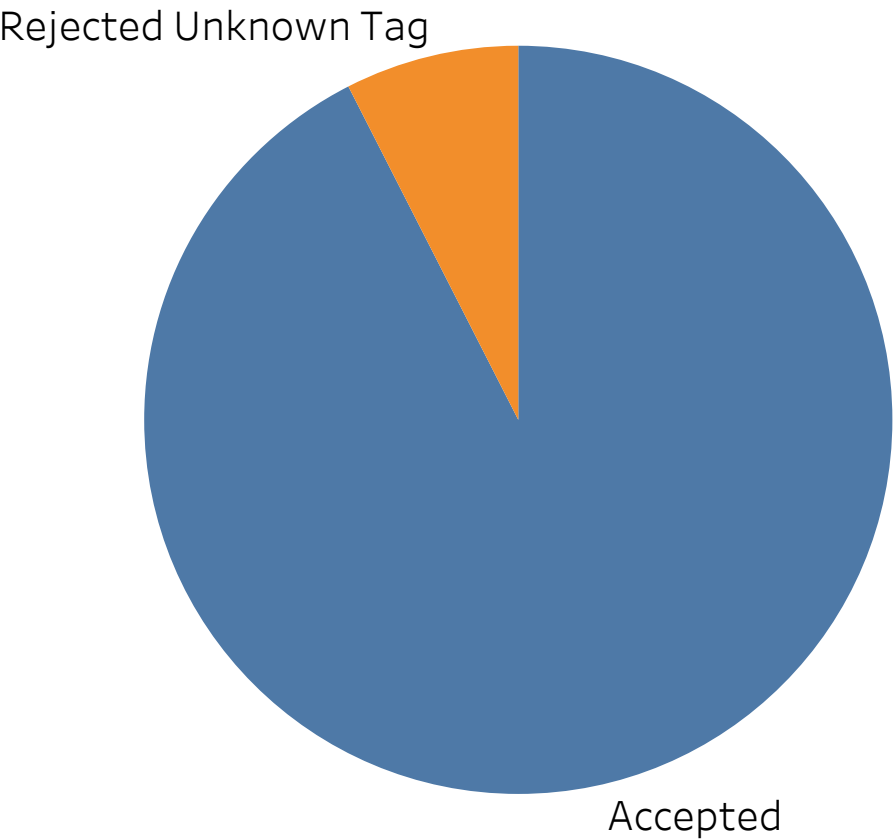

The trend of average of Pipeline Latency Ms for Timestamp Day. Color shows details about Zone.

Security Posture

Measure Names

- Accepted
- Rejected Unknown Tag

Accepted and Rejected Unknown Tag. Color shows details about Accepted and Rejected Unknown Tag. The marks are labeled by Accepted and Rejected Unknown Tag. Details are shown for Accepted and Rejected Unknown Tag.

Greenhouse Temperature - 7 Day Trend

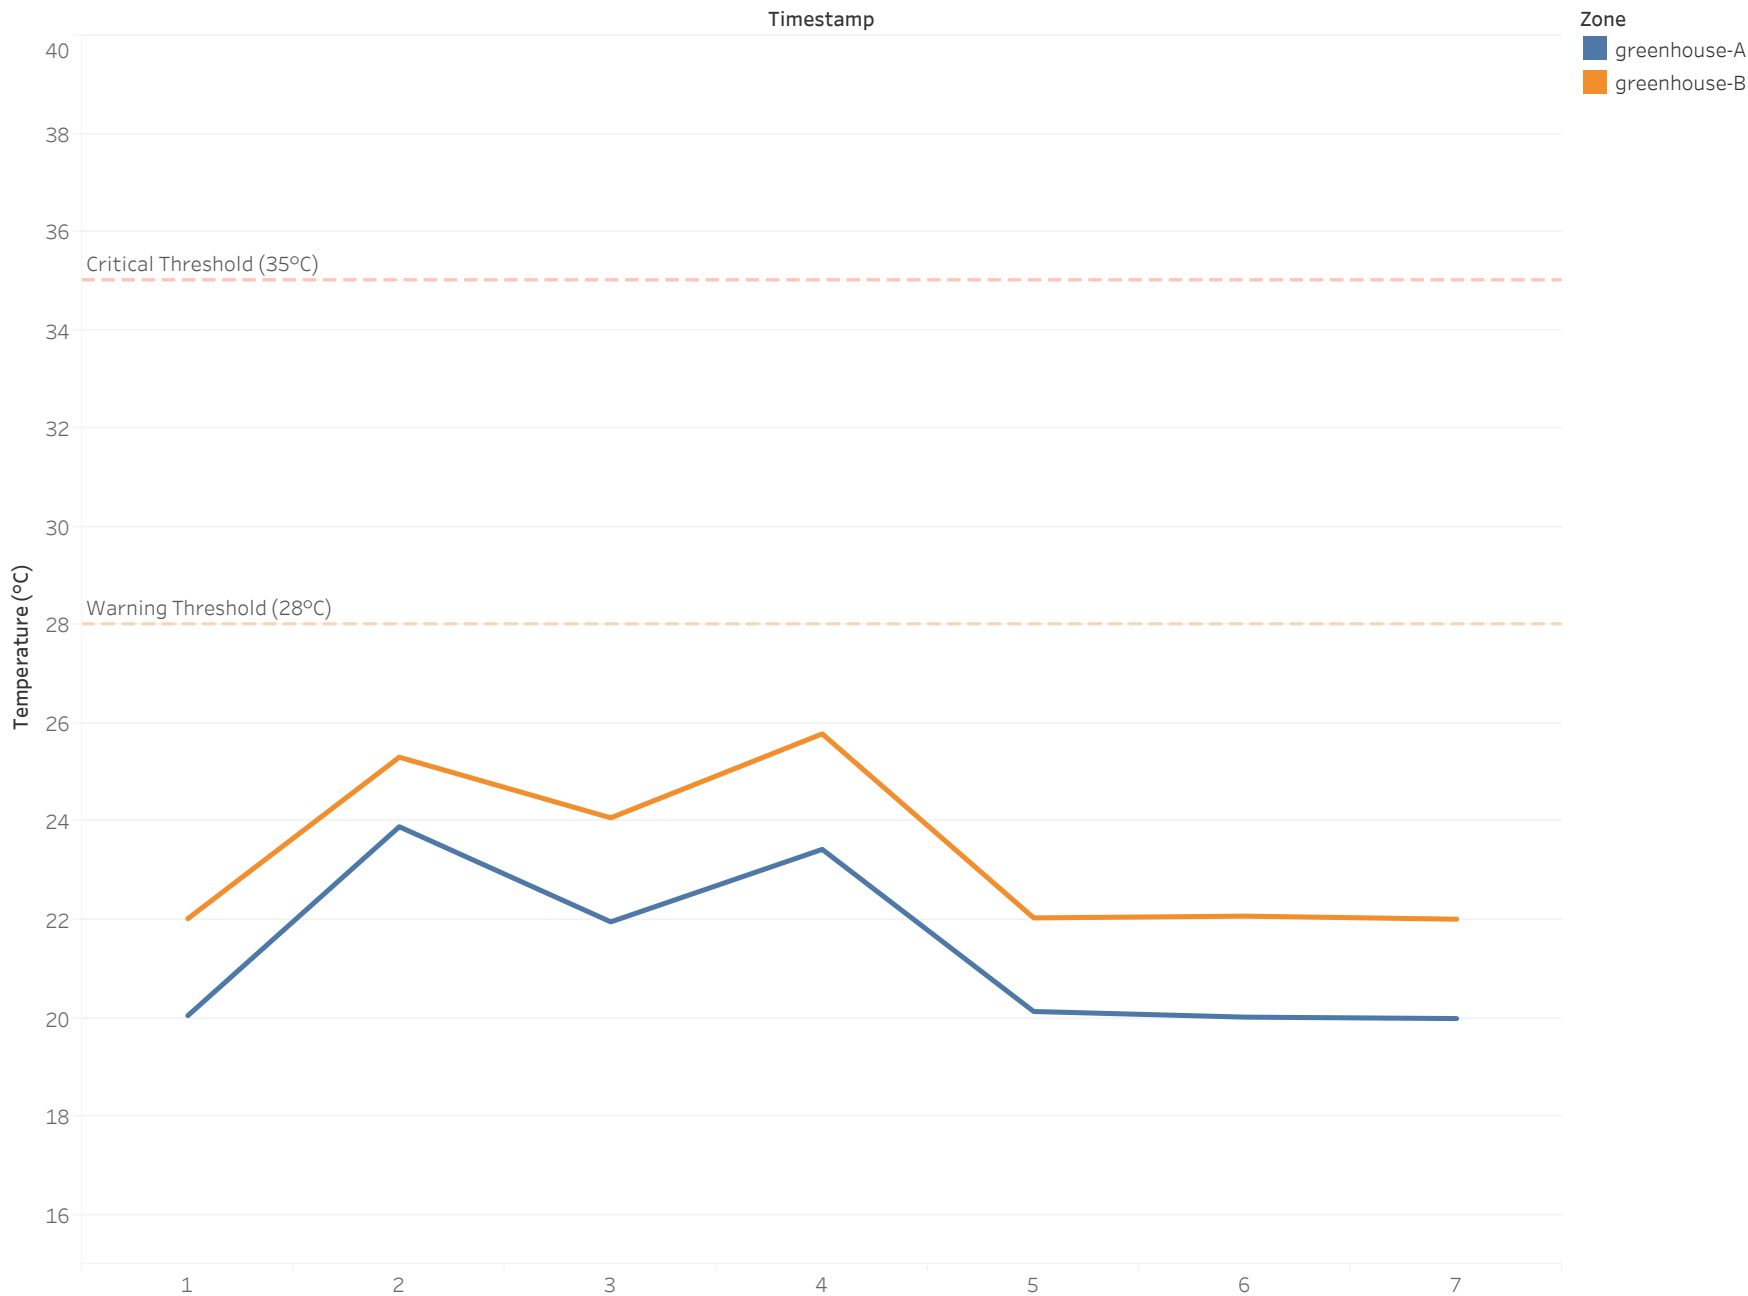

Classification Breakdown

Alert By Day

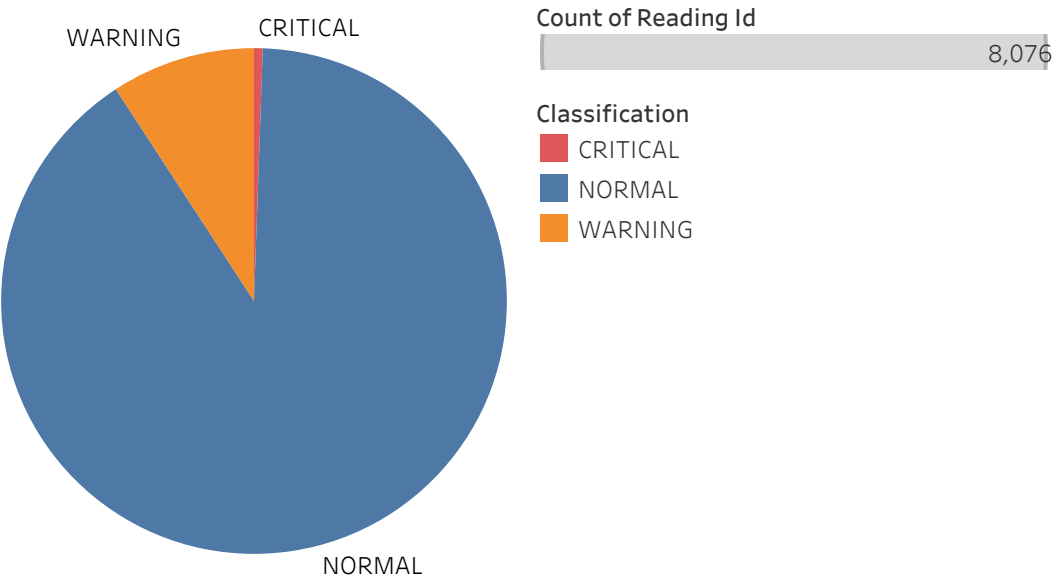

Greenhouse Temperature - 7 Day Trend

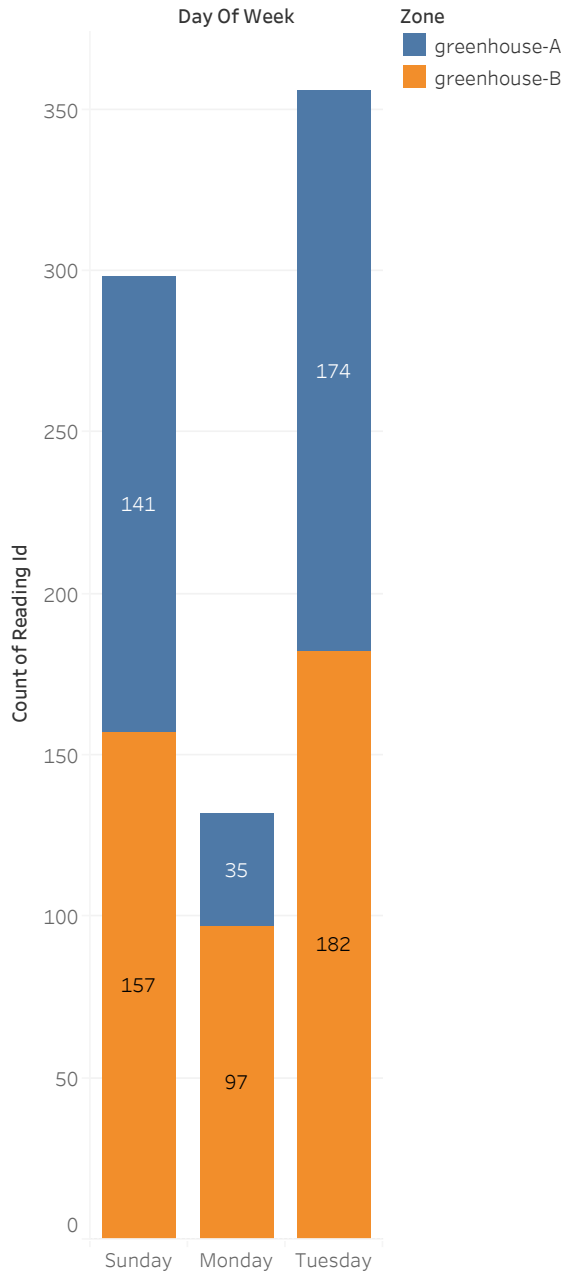

The trend of average of Value for Timestamp Day. Color shows details about Zone. The data is filtered on Metric and Action (Day Of Week,Zone). The Metric filter keeps temperature_c. The Action (Day Of Week,Zone) filter keeps 14 members.

Classification Breakdown

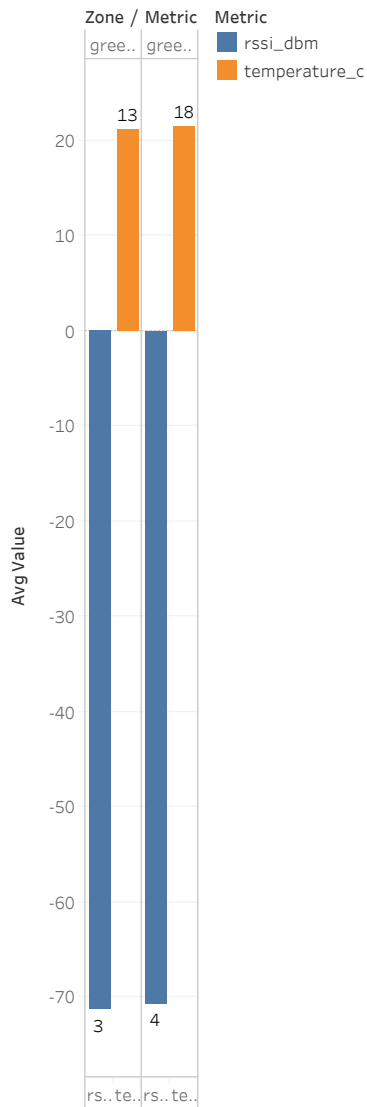

Classification. Color shows details about Classification. Size shows count of Reading Id. The marks are labeled by Classification. The data is filtered on Action (Day Of Week,Zone), which keeps 14 members.

Alert By Day

Count of Reading Id for each Day Of Week.
Color shows details about Zone. The data
is filtered on Alert, which keeps True.

Live Pipeline
Run - AWS IoT
Core (eu-west-2)

Sum of Avg Value for each Metric broken down by Zone. Color shows details about Metric. The marks are labeled by sum of Reading Count.

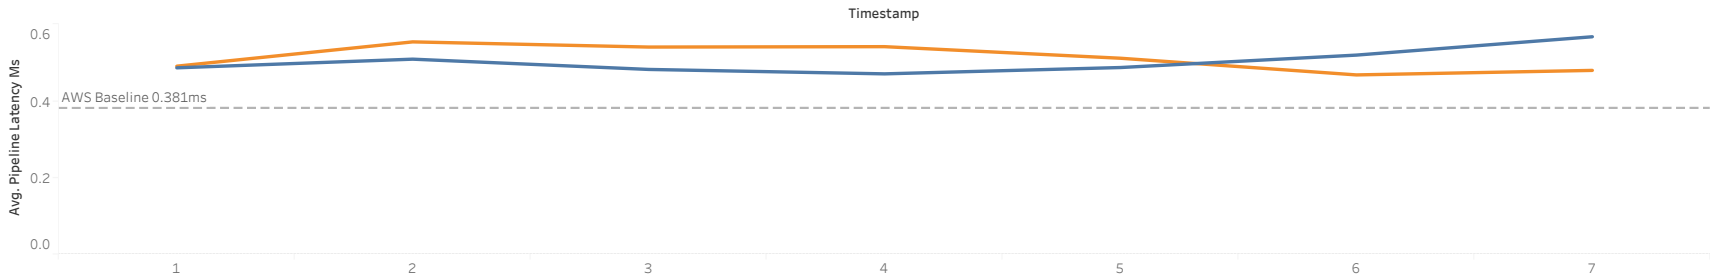

KPI - Rogue Rejection

7.1%
Rogue Signals Rejected (%)

KPI - Rogue catch rate

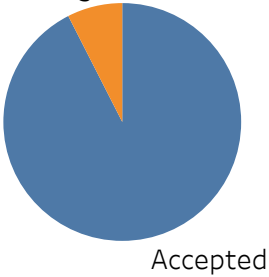

100%
Adversarial packets rejected (5 of 5: 3 rogue ID, 2 spoofed key)
